Skits

Yo I flow like water burn like fire  
Down to earth whirlwind wilder than your average type  
of  
Chitty chat taxi driver  
You wanna get high you better pass the lighter  
Let me blast my sniper rifle bullets  
Right through rivals \*like you, liars\*  
I got the scoop like a Pelican beak  
But I keep my gates locked with the skeleton key  
I might go to the zoo and set an elephant free  
Or stay a vampire like a Serefan priest  
Snakes and garlic, straight retarded  
Hate me for it thats what I love most  
I cut throats of all those wack urban rappers  
Spinning stab persian daggers  
German shepherds at the entrance gates  
We are the keepers the best to date

Jay

\*Yo Jay\* I got the key from illuminated wands  
A couple of guns for anyone who wanna front  
A whole lotta knowledge a government task  
So if you wanna pass ima stop it, and ask?  
You think you're the hot sh\*t you think  
You can block rockets, I got some bombs in my pocket  
Im black glockless eat niggas like hot pockets  
And laugh at the scars like that movie Hot shots did  
I carry heavy loads Im the black smoke from  
- last episode but you may never know  
I went to hell alone the guards gave me the  
Gift of the pharaoh and the devils thrown  
Guarding the gate with my life and my presence  
Secrets I keep from the ruler from heaven  
We got 7 secrets and 7 sins  
And this is where the end begins

Dopey

I hunt this habitat detroy your battle raft  
Fracture your knee caps and take home your weed stash  
Gatekeeper no one shall pass  
Try to tresspass and i'll have the last laugh  
There's no breaking the rules cuz we make them  
This is the start of a new generation  
Forget what used to be all doubt will be  
Wiped out brutally and you will see  
All you can do is agree don't wanna see  
A few go on a killing spree  
Dope I bring death from the man  
Tryna make out on what planet to land  
I got the earth in my hand  
A new world and the next big bang  
A new home you don't get this fam  
The god you pray to nahh he won't receive ya  
Now ya last hope is the Gate Keepers
