

Slowmotion

Dope D.O.D.

We float in slow motion Just smoking, flowing No joking We float in slow motion Just zoning, floating No joking

The constant rotation I always stay patient As the world turns, MC's take turns You had your time Ended up in the earn Foundations stand firm As we electrify the burn We branded our name on the planet That's how we planned it We steady sailing, you're stranded Now come and feast on this banquet The total package, yeah we got it all mastered If you're cunning edge than you don't appeal to everyone People wake up when the damage is done If you just don't stop then you don't have to run If you just keep going then success will come I take it slow and watch masses in motion Watch time pass and keep my mind open Dopey Rotten--the word is being spoken I watch the world pass by in slow motion

This is not a drill I kill with the skill Wild with the wicked plus I chill with the real I can kick the habit, now you won't hear the ill My clan spits the graphic in control of the wheel My show is a thrill to behold if you will MC's know the deal--they get thrown on the grill In the streets they act cheap like their soul is to steal I see their every motion move slow like a snail I capture moments worth memorizing Every step I stay focused on enterprising Skitz is never hiding And I don't take shit Stay creative, they say the my vibe's contagious Laugh now cry later alligator Cuz' in a while you and the crocodile will see times greater Nice flavor, strikes sages Wild when we rock a crowd Can't wait what's ahead of me, for now

Take a hit of the hydro Asked to calm down of the micro-psycho I'm stuck, with my life though The same f**king cycle We all want to live and die like Michael Cock-blocks and moon walks A sea in slow motion A life of the Boondocks, next to the ocean Smoking and hoping, an empire growing For the last time Take a look at the broken ...I lay my cards on table Trust my brothers--no Cain & Abel Your mind's smashed like potato I'm living in the light, I'm an angel savior So follow me into the plains of the asteroids Open up your minds, let it free, let it pass ya And inhale my symphony Forever to dwell in the infinite galaxy...

We float in...slow motion...
