

Trick or Treat

Dope D.O.D.

Ah

When the sun goes down and the lights go off
There's a ghost in town, better check your watch
If it's 3 AM, better lock your doors
Cause the block ain't safe when we walk on yours
When the night stick swings it will bust your jaw
With the teeth you lose you can mob the floor
When the beat kicks in we unleash the gore so trick or treat do
you want some more?

You deal it with a click for the cannibals, I bite your neck like an antelope
And I dont take no prisoners, civil make the base go radical
It rattles the justifer listener, hit you in the face like a metal pole
Medical treatment urgent, please send somebody in, he's lettin' go
Never recycle cycle michael myers, better recharge
The better restart so Im ready to bring the violence
Lettem' inside them, chuckle and hide em' for the antnite, Im C
hucky by day, Im Leatherface to you, better think twice of what
I might do, and make sure you get the f*ck out the way
D.O.8 is the verdict, every phone's out of service
Hills advice we will kill you guys, the Windcrests memory is murder

Reaper get rid of the burner, Im puffing more cookies than burn
a
Blood on the wall and the priestess
