

Blue Moon Fox

Dope Lemon

Over my head
Gets lonely when the sun goes down
Oh wiley fox in his dreams
Chasing the smoke
Around the crystal ball

Ooo blue moon yeah
I see you in the light sometimes
When it's bright

Ooo blue moon yeah
I see you in the light sometimes
When it's high
Getting high tonight

Violet flowers of Charlatan gin
I knew we would get along
This song's been playing in the back of my head for so long
Knew that you'd come along
The crystal balls shining

Ooo blue moon yeah
I see you in the light sometimes
When it's bright

Ooo blue moon yeah
I see you in the light sometimes
When it's high
Getting high tonight

Ooo blue moon yeah
I see you in the light sometimes
When it's bright

Ooo blue moon yeah
