

Dope & Smoke

Dope Lemon

Let's just roll, baby, oh
Let's just roll, baby, oh
Take the car down the hill
Drive down to the coast
Get rid of all your ghosts, leave 'em all behind
Mm, we got enough dope and smoke to keep us peachy
Jump in my car, roll me up one, oo
The dust is flying off the wheels
As we disappear into the sun

We got enough dope and smoke to keep us peachy
We got enough dope and smoke to keep us peachy
We got enough dope and smoke to keep us peachy
We got enough dope and smoke to keep us peachy

Oh, I see it over there
The breeze in your hair
Got your head out the window
And you're feeling just fine
Oo, the radio plays a smooth little song
Picks us up so we can carry on
We can roll anyway you wanna roll, baby
Oo, we can go anywhere you wanna go, baby, oo

We got enough dope and smoke to keep us peachy
We got enough dope and smoke to keep us peachy
We got enough dope and smoke to keep us peachy

Oo, she takes off her towel, moves to the water's edge
Oh, the sky is so blue when I look into her eyes
Oh, let's just float away forever, girl
We can go anywhere you wanna go, baby
We can do anything you wanna do, baby
We can roll anyway you wanna roll, baby
Oh, we can live how we wanna live, baby
Oh, we can talk how we wanna talk, baby
Oh, we can roll where we wanna roll, baby
Let's just roll
Let's just roll
