

Howl With Me

Dope Lemon

Ay, ay que fiebre, ay

Yeah, she got found half alive by a pack of wolves in them there woods

Yeah, seems she became a part of the gang soon enough, just like that pack of scoundrels knew she would

One day she got bored, she built a raft, she floated down that slow ass stream

She must have been traveling for days, it seemed, as she'd fallen into a dream

She said "Come howl with me, baby"

Come howl with me baby, tonight

Come howl with me, baby

Come howl if you know what's right

Around midnight

Yeah, she drifted for days till one misty afternoon

Standing by the river she met a big bear named Moe

She waved him aboard with a big bottle of moonshine then off down the river they did go

Yeah, he looked over at this little blue eyed snow fox of a girl

It seems my little dear we've arrived at that moment where there's a fork in the road

Which way you wanna go?

Come howl with me, baby

Come howl with me baby, tonight

Come howl with me, baby

Come howl if you know what's right

Around midnight

I, I can feel it tonight

I, I can feel it tonight

I, I can feel it tonight
