

Lemon Tree

Dope Lemon

Come with me Peggy Lee
There's lemons in them trees
In a dream in a dream
They're coming for me

Leaning closer
To find out what you're leaving
In this moment
Leave behind
Requiem a ghost
But I'm moving faster in the ether
Above the shadows of time
The shadows of time

Come with me Peggy Lee
There's lemons in them trees
In a dream in a dream
They're coming for me

Come with me Peggy Lee
There's lemons in them trees
In a dream in a dream
They're coming for me

I'm bleeding the Valkyrie
She ain't sleeping
Fumble for the keys to
Leave you behind
The sleuth is a leach
Tryna hold on
Draw back the curtains
To keep out the light
To keep out the light

Come with me Peggy Lee
There's lemons in them trees
In a dream in a dream
They're coming for me

Come with me Peggy Lee
There's lemons in them trees
In a dream in a dream
They're coming for me
