

## Neon Lights

Dope Lemon

We can go now  
Go jump in the car  
Sit on the roof, girl  
Drank some beers, put me in the stars  
Where the neon lights would lay  
It's cool getting back to me  
Let's forget about it

We can go forget who we are  
We can go forget who we are

Let's roll around 'till i feel touching the ground  
Have a drink now 'till i drift away with the stars

Let's forget about it  
We can go forget who we are, yeah  
Let's forget about it  
We can go forget who we are, yeah

We can go forget who we are, yeah  
We can go forget who we are  
We can go now  
We can go forget who we are  
We can go now  
Let's go  
We can go forget who we are  
We can go now  
Let's go  
We can go forget who we are

Go forget who we are, yeah  
Go forget who we are, yeah
