

## Salt & Pepper

Dope Lemon

I got the cocaine flame in my brain  
Shake your little salt and pepper  
We'll float back to yours  
I got the cocaine fling in my brain  
Shake your little salt and pepper  
We'll float back to yours  
Bag it up, let's forget about it and enjoy the night

Oh, see your horny bones dancin' across the floor  
I can see the blue light from underneath the door  
Oh, this time of day's got me all figured out  
Oh, come on over, girl, pour us a drink  
and we'll move the amount  
I like the way you move through the night

Shake your little salt and pepper  
We'll float out of here  
I got the cocaine fling in my brain  
Shake your little salt and pepper  
We'll float back to yours  
I got the cocaine fling in my brain  
Shake your little salt and pepper  
We'll float back to yours  
I got the cocaine fling in my brain  
Shake your little salt and pepper  
We'll float back to yours  
Bag it up, let's forget about it and enjoy the night

Oh, the stars are floatin' bright  
Gonna make our way to the sky tonight, baby  
Oh, everybody lookin' for a big night  
Everybody wanna have a good time  
Gonna float away, lift our feet from the ground, honey

Shake your little salt and pepper  
We'll float back to yours

'Cause all she wanna do is lift our feet from the ground  
For a little while  
Turn that rainbow face upside down, baby girl

I got the cocaine fling in my brain  
Shake your little salt and pepper  
We'll float back to yours  
I got the cocaine fling in my brain  
Shake your little salt and pepper  
We'll float back to yours  
Bag it up, let's forget about it and enjoy the night
