

Shadows In The Moonlight

Dope Lemon

(Oh, you're comin' on strong)
Hey, you, lover girl (Oh, you're comin' on strong)
Gonna tear apart your world
Everything you hold dear tomorrow
Hey, you, lover girl
Gonna tear apart your world
Everything you hold dear, I'm sorry
We were just walkin' in the shadows of the moonlight

Like ships in the night runs fresh blood
Everybody knows if you wanna find love
All you've gotta do is dance in the moonlight
(Dancin' in the moonlight)
Like ships in the night runs fresh blood
Everybody knows if you wanna find love
All you've gotta do is dance in the moonlight
(Dancin' in the moonlight)

Oh, do the shadows make you scared at night?
Can you see the eyes? Do they give you a fright?
Does it make you think of things that hide in the dark?
(Yeah, yeah, yeah, things that hide in the dark)
Does he ask you questions that make you fear
The things that you never wanna hear?
That make you listen to yourself
And you're feelin' low to the ground
(Yeah, yeah, yeah, feelin' low to the ground)
Yeah, he watches you go get changed upstairs
As you turn your light off, he appears
He climbs the tree and dances in the moonlight
(Yeah, yeah, yeah, dancin' in the moonlight)

Blood from the streets, from the people that you meet
That you're walkin' by shadows in their sorry eyes
I'm not sorry, I never told you I loved you
Be gone, be gone, be gone, be gone
Oh, you're comin' unstrung, you're comin' unstrung
C-Comin' unstrung, you're comin' unstrung
Oh, you're comin' unstrung, you're comin' unstrung
You're comin' unstrung, you're comin' unstrung, oh

Hey, you, lover girl
Gonna tear apart your world
Everything you hold dear tomorrow
We were just walkin' in the shadows of the moonlight
Hey, you, lover girl
Gonna tear apart your world
Everything you hold dear, I'm sorry
We were just walkin' in the shadows of the moonlight

The trees, they flow from side to side
Crack foxes in the park, they dance in the night
Waitin' for their whispers to float down stream
(Yeah, yeah, yeah, waitin' for their whispers down the stream)
There's a big old fire burnin' bright
They dance around in the middle of the night
There, they'll dance with you in the moonlight

(Yeah, yeah, yeah, dancin' in the moonlight)
The streets of Paris runs fresh blood
Everybody knows if you want to find love
All you've gotta do is dance in the moonlight
(Yeah, yeah, yeah, dancin' in the moonlight)
Oh, do the shadows make you scared at night?
Can you see the eyes? Do they give you a fright?
Does it make you think of things that hide in the dark?
(Yeah, yeah, yeah, things that hide in the dark)

Hey, you, lover girl
Gonna tear apart your world
Everything you hold dear tomorrow
We were just walkin' in the shadows of the moonlight
Hey, you, lover girl
Gonna tear apart your world
Everything you hold dear, I'm sorry
We were just walkin' in the shadows of the moonlight

So you take his hand and he walks you down
As roses fall from his thorny crown
Takes your hand and you dance in the moonlight
(Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah)

(Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah)
(Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah)
(Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah)
(Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah)
