

Smooth Big Cat

Dope Lemon

Smooth big cat
Take your time on the hill, then roll away
Smooth big cat
We float down the hill with the smoke, be on his way

He don't mind big nights of cocaine
He loves to pull a cork and let the record spin
Smooth big cat
Roll me up a smoke and let's be on our way
The hounds barked, the birds are gone
The sky was so big as we wandered home

Smooth big cat
Take your time on the hills and roll away
Smooth big cat
We float down the hill but the smoke be on its way

Seems yesterday as it always was
He plays the music late and likes staying up
He's looking out to the stars
He says, "No need to worry
We got this now"
He says, "No need to worry
We got this now"

He says, "No need to worry
No need to worry
No need to worry
No need to worry"
He says, "No need to worry
No need to worry
No need to worry
No need to worry"
He says, "No need to worry
No need to worry
No need to worry
No need to worry"
He says, "No need to worry
No need to worry
No need to worry
No need to worry"
