

Believe

Dope

I believe in love
The sun is gonna rise again
I believe in love
'Cause that's where it all begins
We live and learn, die and burn
So in the end
I believe in love
'Cause that's where it all begins

I believe
Whoa-oh-oh, whoa-oh-oh
I believe
Whoa-oh-oh, whoa-oh-oh
I believe

I've been around the world a half a dozen times
I've seen a lotta fucked up things that kinda changed me
I've felt the pain and loss and thought of suicide
But not today, I'm finding my own way

'Cause life goes on (life goes on)
And time goes on (life goes on)

I believe in love
The sun is gonna rise again
I believe in love
'Cause that's where it all begins
We live and learn, die and burn
So in the end
I believe in love
'Cause that's where it all begins

I believe

I've been down this road a half a million times
If I learned anything it's we're all fucking crazy
If I don't suffocate I'm sure that I'll go blind
But not today, I feel like taking the long way

'Cause life goes on (life goes on)
And time goes on (life goes on)

I believe in love
The sun is gonna rise again
I believe in love
'Cause that's where it all begins
We live and learn, die and burn
So in the end
I believe in love
'Cause that's where it all begins

I believe
I believe

I believe in love
The sun is gonna rise again
I believe in love

'Cause that's where it all begins
We live and learn, die and burn
So in the end
I believe in love
'Cause that's where it all begins

I believe
Whoa-oh-oh, whoa-oh-oh
I believe
Whoa-oh-oh, whoa-oh-oh
I believe
Whoa-oh-oh, whoa-oh-oh
I believe
Whoa-oh-oh, whoa-oh-oh
