

Fuck It Up

Dope

So tell me something different
Something that makes a difference
That you could say with confidence
Start with your stupid ignorance
Completely void of common sense
Sold yourself out with arrogance

You always find a way
You always find a way

Somebody always finds a way to fuck it up
To fuck it up

I don't believe in innocence
I've never seen the evidence
So fucking bored of consequence
So tell me, what's the benefit?
You're such a fucking hypocrite
I wonder why I give a shit (I don't give a shit)

You always find a way
You always find a way

Somebody always finds a way to fuck it up
To fuck it up

You always find a way
You always find a way

Somebody always finds a way to fuck it up
To fuck it up
Somebody always finds a way to fuck it up
To fuck it up
