

Misery

Dope

Pleased to meet you could you tell me your name
I'll probably forget, I've been stoned since the 4th grade
Infatuations got me going insane
I'll probably go blind, I've been doing this all day

No I can't complain that I
I never wanted this
No I can't complain cause I
Could taste the poison on your lips

This is no ordinary love
Cause it hurts too much
I hate you so much
Misery baby you drive me crazy
It's an infuriating love
Cause it hurts too much
I want you so much
Misery baby
I'd kill myself or anyone else for you

Misery baby
Nobody loves you like I do
I'd kill myself or anyone else for you

I pledge allegiance and I'll sing you a song
I hope I don't choke, I've been holding for so long
I'm feeling anxious and it's harder to breath
Put the gun to my head cause your driving me crazy

This is no ordinary love
Cause it hurts too much
I hate you so much
Misery baby you drive me crazy
It's an infuriating love
Cause it hurts too much
I want you so much
Misery baby
I'd kill myself or anyone else for you

Might be sad but true
Misery baby
Nobody loves you like I do
I'd kill myself or anyone else for you

No I can't complain that I
I never wanted this
No I can't complain cause I
Could taste the poison on your lips

This is no ordinary love
Cause it hurts too much
I hate you so much
Misery baby you drive me crazy
It's an infuriating love
Cause it hurts too much
I want you so much
Misery baby

I'd kill myself or anyone else for you

Might be sad but true

Misery baby

Nobody loves you like I do

I'd kill myself or anyone else for you

Might be sad but true

Misery baby

Nobody loves you like I do

I'd kill myself or anyone else for you
