Violet

Dope

I'll tell you from the start just how this will end
When I get what I want and I never want it again

Go on, take everything, take everything, I want you to
Go on, take everything, take everything, I dare you to

And the sky was made of amethyst
And all the stars look just like little fish
You should learn when to go
You should learn how to say no

Might last a day
Might last forever

And they get what they want and they never want it again
They get what they want and they never want it again

Go on, take everything, take everything, I want you to
Go on, take everything, take everything, I want you to
Go on, take everything, take everything, I dare you to
Go on, take everything, take everything, I want you to

And the sky was all violet
I wanna give the violet more violence
I'm the one with no soul
One above and one below

Might last a day
Might last forever

And they get what they want and they never want it again
They get what they want and they never want it again

Go on, take everything, take everything, I want you to
Go on, take everything, take everything, I dare you to

Steal all of my loving

Go on, take everything, take everything, I want you to
Go on, take everything, take everything, I want you to
Go on, take everything, take everything, I dare you to
Go on, take everything, take everything, take everything, take everything
