

Wide

Dope

I'm back to burn down the system
I smashed you into submission
I bash the brains of the victim
I'd back away
Motherfucking go wide
Have a piece of me
Motherfucker go wide
That's my motivation

I'm not afraid
Tell me what you want from me
Don't walk away
Settle for their sympathy
I'm not OK
Nothings how it use to be
Just walk away
Drowned in your anxiety

I still run it
Never stopped running
Never stop gunning for
What a I fucking wanted
I still run it
I'll always fucking run it
Never stop gunning for what
I want it right now

I'm back to burn down the system
I smashed you into submission
I bash the brains of the victim
I'd back away
Motherfucking go wide
Have a piece of me
Motherfucker go wide
That's my motivation

I'm not afraid
Tell me what you want from me
Don't walk away
Settle for their sympathy
I'm not OK
Nothings how it use to be
Just walk away
Drowned in your anxiety

I still run it
Never stopped running
Never stop gunning for
What a I fucking wanted
I still run it
I'll always fucking run it
Never stop gunning for what
I want it right now

I'm back to burn down the system
