

# Bumblebee

Dora Jar

Obviously, you're already over me  
So, I'll become a bumblebee  
Pollinate the stadium, oh, flower gun  
Blow me away, Ultraviolet Tanqueray  
I'm in love with everyone  
I don't need your kingdom dumb, dumb, dumb  
Stupid, overjoyed, undercover, I'm destroyed  
By my baby 'cause he doesn't know, oh  
How bad it can feel when you find out love is real  
But you don't have a way to let it show?

(La-la-la) Ring around the rosie  
(La-la-la) I'm always the first to fall down  
(La-la-la) Wanna make it cozy  
(La-la-la) But I'm on the cold, hard ground

Temporary unbearable feeling  
I'm addicted to the sting  
Savoring the misery, don't set me free  
Stupid little boy, you're a bummer of a toy  
And you don't know how to take control  
I found your puppeteer  
He was drunk and leaking tears  
Raining down washin' away your soul

(La-la-la) Ring around the rosie  
(La-la-la) I'm always the first to fall down  
(La-la-la) Wanna make it cozy  
(La-la-la) But I'm on the cold, hard ground  
(La-la-la) Ring around the rosie  
(La-la-la) I'm always the first to fall down  
(La-la-la) Wanna make it cozy  
(La-la-la) But I'm on the cold, hard ground
