

# Puppet

Dora Jar

No smoke d-d-d-detector in the venue  
Are you afraid to die?  
No false alarm can stop me now so I continue  
It's time to say goodbye  
To those sorry souls who try to tie me up, I shake my head  
All you puppets only hang on by a thread

No ele-le-le-levator in the building  
I guess I have to climb  
Up on the scaffolding, my confidence is tilting  
God, give me a sign  
I'm that sorry soul who let those little robbers in my head  
I'm the puppet, can you help me cut my thread?

I'm p-p-p-picking berries in the forest  
Maybe they're poisonous  
I baked a pie and now I'm hearing all the voices  
Now I don't know the rest of this song  
I'll make it up, you'll sing along stuck in our heads  
Every moment always hangin' by a thread

No smoke d-d-d-detector  
No ele-le-le-levator  
No smoke d-d-d-detector  
No ele-le-le-levator  
Are you afraid to die?
