

Quiver

Dora Jar

Somehow the door you closed is open again
I walk right through
Into a dangerous dimension
Where we begin again

Is it the same place?
Oh I wish that nothing ever happened

Quiver to the bone
I wonder if I'm gonna crumble, baby
In the storm, alone
You rumble through me like the thunder, baby

Tell me the good part of our story
Oceans receive the rain
Love me inside your laboratory
Potions relieve my pain

Is it the same place?
Oh I wish that nothing ever happened

Quiver to the bone
I wonder if I'm gonna crumble, baby
In the storm, alone
You rumble through me like the thunder, baby

Quiver to the bone
I wonder if I'm gonna crumble, baby
In the storm, alone
You rumble through me like the thunder, baby
