

Tiger Face

Dora Jar

One, two, three, four
Intro, yeah

Came out of a great depression
I don't wanna make an impression
Just a kitty with a tiger face
Met you and it felt like a gold rush
Talking to you, making me blush
Now I'm tumbling in a tidal wave

I kinda like it when you treat me like a dog
I kinda like it when you give me what I want
I kinda like it when you turn me on
Don't leave me beggin', baby
Beggin' you for more

More, yeah
More, yeah

Sorry if I came on too strong
Gotta lotta love for the anthem
Come on, let me see your tiger face (Roar)
Running through my veins like cold blood
Singing through the pain like "Oh, God!
Come on, take me to a better place!"

I kinda like it when you treat me like a dog
I kinda like it when you give me what I want
I kinda like it when you turn me on
Don't leave me beggin', baby
Beggin' you for more
