I'm waiting here for you all day
Don't know when it is that you come back
But I just can't afford to move along without you
Look back, memories and footsteps
It's up to you if they'll turn into bullets or life
I won't ever throw away
Even if my heartbreaks
I would prolly take it then forget about our time
No, I don't have nothing to say
I know it's useless
Oh babe, can't you see my heart aches?
You're the only one to fill up the
Void and resurrect my life

Don't you love me back, girl?
Neukkimeun so over
Nega anirae tto nan nothing
Don't you love me bad, girl?
Neukkimeun so over
