Drag

Dorian Electra

(Drag) You can create who you are
(Drag) Gender-bending is just the start
(Drag) You dress to impress, to express who you are
You are a superstar

Come on queens, let's get ancient
Back, back, back in the Grecian Age
When only boys were allowed on stage
A Masc4Masc society, no room for femininity
So I'll play the girl, and you play the boy
Then we can go play with each other, daddy

D-R-A-G, it started with Shakespeare and me
Wherefore art thou all you ladies?
Not on stage, for it's degrading!
Theater is much too crass for the dainty, wilting lass!
Only queens are allowed on stage
And even then, we don't make the same wage

Painted, polished; yeah, I'm flawless
All you boys bow down
I'm the Chinese prima donna
Don't you wanna kiss the crown?
Use my sword and use my spear, that's how I look this real
You better fear my strength and skill, my looks can kill

(Drag) You can create who you are
(Drag) Gender-bending is just the start
(Drag) You dress to impress, to express who you are
You are a superstar

Step right up, see the freaks on the stage
It's the the sideshow craze of the Victorian age
Gender non-conformers forced to be circus performers
People came to pay to see them put on display

Mm, liquor up, lick her down, she delicious
The Vixen, but I never been a mistress
The mission is to end the prohibition
Me and the boys got a pleasure doin' business
Fat cats got ya sleeping with the fishes
Real tea, it ain't Lipton I'm sippin'
Speakeasy and listen, there's no intermission
The coppers be trippin', the trouble we get in
The misfits we let in, the bets we be bettin'
The thirst I be quenchin', the whistles we wettin'
All the hate and debate got us pausin'
So we dress like we livin' in the closet
All the queens, and the kings, and the clowns
Show the upper class how to get down (town)
All the down low boys stand up
Here's a chance for you to step, touch
Bad girl giving you a good time
Never a bad time to pass the moonshine
I get around 'cause I run this town
They locked liquor up, come lick her down

(Drag) You can create who you are
(Drag) Gender-bending is just the start
(Drag) You dress to impress, to express who you are
You are a superstar

Uh
Been a minute, lately I've been feeling pissed off
Tell the cops they could really get flipped off
I'm not the girl you should ever try to criss-cross
Can't arrest me for the clothes I got stitched on (What?)
Catch this, I was chilling with my drag sis
Trans girl so you know I look mad fish
I don't cross-dress, what's with the madness?
Real woman, bet you really wanna tap this
Sassy, please do not touch or grab me
Unless you wanna see some bottle smashing
It's my body, my choice, my hobby, my voice
What's the big deal if I got a sugar daddy?
Trans power, dance louder
Clap your hands, don't stop, don't miss
Start a riot, bop your fists
I hit the club, who stoppin' this?
All the girls, we on our way
Clear the skies, we done with shade (We done)
Live your life and celebrate
Now let's get high and levitate

(Drag) Create yourself on the stage
(Drag) Gender is a game, but the rules have got to change
(Drag) Transcend it and blend it and bend till it breaks
You are what you create
(Drag) You can create who you are
(Drag) Gender-bending is just the start
(Drag) You dress to impress, to express who you are
You are a superstar
(Drag, drag, drag, drag, drag, drag)
