Idolize

Dorian Electra

Idolize
Idolize
Idolize

I-i-idolize all night, all mine
Idolize my bed in the middle of the night
I don't play nice, I scratch, I bite
And I just might have to idolize your life

If I move, if I break, if I shake, if I slip
If I need, if I breathe, if I ever try to leave
If I hide, you find, whack-a-mole, grand prize
Dig your hole real deep, baby, bury me alive

Love me the way that you like
Treat me how you want to, I'll let you sacrifice my life
All eyes on me worldwide
Tonight, we're gonna idolize

I-i-idolize all night, all mine
Idolize my bed in the middle of the night
I don't play nice, I scratch, I bite
And I just might have to idolize your life

Tie me up, tie me down, make the rope real tight
Make you laugh out loud, baby, then I'll make you cry
Tell me jump, how high?
Make it rough, real ride
Scrutinize my mind, baby, screw me with your eyes

Love me the way that you like
Treat me how you want to, I'll let you sacrifice my life
All eyes on me, worldwide
Tonight, we're gonna idolize

Idolize all night, all mine
Idolize my bed in the middle of the night
I don't play nice, I scratch, I bite
And I just might have to idolize your life

I-i-idolize all night, all mine
Idolize my bed in the middle of the night
I don't play nice, I scratch, I bite
And I just might have to idolize your life

I-i-idolize all night, all mine
Idolize my bed in the middle of the night
I don't play nice, I scratch, I bite
And I just might have to idolize your life
