

# Under The Armor

Dorian Electra

I know your secret  
You can't conceal it  
What you desire  
I felt the flames getting higher and higher

No, this lie can't last for long  
I know what turns you on  
So baby, take it off  
This war has begun

Under the armor, you're getting hotter and hotter  
Under the armor, you're getting hotter and hotter  
And hotter, and hotter

'Cause I can see you hide behind your shield  
It's so clear to me you feel the way I feel

No, this lie can't last for long  
I know what turns you on  
So baby, take it off  
This war has begun

Under the armor, you're getting hotter and hotter  
Under the armor, you're getting hotter and hotter  
And hotter, and hotter  
You're getting hotter and hotter

And hotter, and hotter

But you push me farther away  
You're getting hotter and hotter  
And hotter, and hotter  
But you push me farther away  
You're getting hotter and hotter  
And hotter, and hotter  
But you push me farther away  
You're getting hotter and hotter  
And hotter, and hotter  
But you push me farther away

Under the armor, you're getting hotter and hotter  
Under the armor, you're getting hotter and hotter  
And hotter, and hotter  
You're getting hotter and hotter  
And hotter, and hotter  
Under the armor, you're getting hotter and hotter (So, so hot)  
Under the armor, you're getting hotter and hotter (So hot)  
And hotter, and hotter  
You're getting hotter and hotter  
And hotter, and hotter
