

Vibrator

Dorian Electra

Have you heard of the new sensation? (Uh-uh)
A doctor's instrument that sends out vibration
We have the tools here in our hand
Take a stand
You cannot depend upon a man (uh-uh)

Scientific, it's terrific
Restoring color to my cheeks when I feel frigid
If you want to fly sky high, take my advice
Feel the engine rumble in this device

Vibrator
Turn it on and plug it in (plug it in)
Vibrator
Well, you rev it up and you do it again

V for victory and V for vibration
We can do it while defending this nation
Modern appliances will make the perfect life
Mother's little helper will make you the perfect wife

Feelin' groovy, so flip that switch
You need a helping hand sometimes to scratch that itch
To all my sisters switchin' it on
Keep casting spells with that Magic Wand

Vibrator
Turn it on and plug it in (plug it in)
Vibrator
You rev it up and do it again

Sweat, ladies, sweat
Twist it all around
Work, ladies, work
Till you hit the ground
Vibin' in the club and we won't stop now
It's so hot, I got to cool it down

Vibrator (vibrator, yeah)
Turn it on and plug it in (plug it in)
Vibrator
Well, you rev it up and you do it again
(Rev it up and do it again, yeah)
Vibrator
It's turning me on when I plug it in
Vibrator
Well, it isn't wrong and it isn't a sin
