

WE INVENTED LOVE

Dorian Electra

Don't wanna breathe now
I just wanna let it go
I'm just on my knees, praying for a miracle
Don't wanna make a scene, wanna make an episode
I don't sing along unless you're on my radio

Cause we invented love
Love invented us
We invented love
Love invented us, uh
We invented love
Love invented us
We invented love
Love invented us

I just wanna take, take, take, to the doctor
Somebody gotta come, come, come, and save me
My heart on the line, this time
Before my lungs collapse I gotta
I-I-I-I-I-I just wanna take, take, take, to the doctor
Somebody gotta come, come, come, and save me
My heart on the line, this time
Before my lungs collapse I gotta
I'm gonna weather the storm

We invented love, they just wanna copy us
We invented love, we invented
We invented love, they just wanna copy us
We invented love, we invented

Cause we invented love
Love invented us
We invented love
Love invented us, uh
We invented love
Love invented us
We invented love
Love invented us

Lo-lo Lo-lo-lo-lo lo-lo-lo-lo
Lo-lo- we invented
Lo-lo Lo-lo-lo-lo lo-lo-lo-lo
Lo-lo- we invented
Lo-lo Lo-lo-lo-lo lo-lo-lo-lo
Lo-lo- we invented

They say imitation, is the highest form of flattery
I love you, and you love me
We invented this shit
Didn't have to think one love, two love, three love, four love
Bring it back, bring it back, bring it back to

Don't wanna breathe now
I just wanna let it go
I'm just on my knees, praying for a miracle
Don't wanna make a scene, wanna make an episode
I don't sing along unless you're on my radio

Lo-lo lo-lo-lo-lo lo-lo-lo-lo
Lo-lo- we invented
Lo-lo Lo-lo-lo-lo lo-lo-lo-lo
Lo-lo- we invented
