

# Yes Man

Dorian Electra

All alone again and with no friends  
Everybody said bye to Yes Man  
Everybody stand by him again  
Everybody don't try him this time  
You used to have somebody to lean on  
Used to have somebody to clean up  
Used to have somebody to lean on, so where'd they go?

They're all saying  
Yes, yes, yes, yes, yes, yes  
Laughing to their death, death, death, death, death, death  
They're all saying yes, yes, yes, yes, yes, yes  
Lie under duress-ress-ress-ress-ress-ress

Nobody understands me, nobody, I'm so fucking random  
Nobody tried to understand me, they're just standing in my way  
When you're standing on the grave of everyone who used to try to save you  
Well, they used to try to save me  
But then I went and pushed them all away from me

And now they're all saying  
Yes, yes, yes, yes, yes, yes  
Laughing to their death, death, death, death, death, death  
They're all saying yes, yes, yes, yes, yes, yes  
Lie under duress-ress-ress-ress-ress-ress

They're all playing  
Yes, yes, yes, yes, yes, yes  
Laughing to their death, death, death, death, death, death  
They're all saying yes, yes, yes, yes, yes, yes  
I pay these people to laugh at my jokes and they're not even funny

Yes, yes, yes, yes, yes, yes  
Laughing to their death, death, death, death, death, death  
They're all saying yes, yes, yes, yes, yes, yes  
Lie under duress-ress-ress-ress-ress-ress  
They're all saying

All alone again and with no friends  
Everybody said bye to Yes Man  
Everybody stand by him again  
Everybody, don't try him, this  
Nobody understands me, nobody, I'm so fucking random  
Yes, yes, yes, yes, yes, yes, yes, laughing to their death, death, death, death,  
death, death  
Nobody tried to understand me, they're just standing in my way  
Yes, yes, yes, yes, yes, yes, yes, death, death, death, death, death, death

When you're standing on the grave of everyone who used to try to save you  
Well, they used to try to save me, but then I went and pushed them all away  
from me

Yes, yes, yes, yes, yes, yes  
I pushed them all away from me  
Pushed them all away from me  
They used to to try to save me

Yes

Yes

Yes

Nobody understands me, nobody, cut the fucking fanfare

Cut the fucking fanfare

Cut the fucking fanfare

Cut the fucking fanfare

Cut the fucking fanfare

Cut the fucking fanfare

Somebody, somebody, so cut the fucking fanfare

Cut the fucking fanfare

Cut the fucking fanfare
