

## A Perfect Understanding

Doris Day

We have a perfect understanding  
Everything I'm dreaming you are dreaming too  
We have a perfect understanding  
Seems as though my heart beats deep inside of you

Just holding hands, we make our plans  
Harmonize  
We have the sweetest conversations with our eyes  
Though as the years go, little cares grow  
We won't need a rainbow in the sky above  
We'll have this perfect understanding, called love

We don't need a rainbow in the sky above  
We'll have this perfect understanding called love
