

## I Believe in Dreams

Doris Day

I believe in dreams  
My head is in the clouds  
I know I'm quite the fool  
I know, I know

It isn't sane, it isn't sensible  
But what's to gain by being sensible?  
When I'm all alone and wondering what to do  
I close my eyes and dream I'm there with you

Then I'm no longer all alone  
Strange as it seems  
For I believe in dreams

Then I'm no longer all alone  
Strange as it seems  
For I believe in dreams
