

## Sleepy Baby

Doris Day

Sleepy baby, day is done  
Time for dreaming has begun  
Come with me to slumber land  
Love will lead us by the hand

Dreams are waiting to come true  
One for me and one for you  
While the night wind softly sighs  
Sleepy baby, close your eyes

In my arms I'll hold you tight  
Snug and warm through the night  
And I'll tell the evening star  
Just how wonderful you are

Then in dreams we'll drift away  
Far from all the cares of day  
Till the morning shadows creep  
Sleep, my sleepy baby, sleep

Sleepy baby, sleep  
Sleepy baby, sleep
