

Small Talk

Doris Day

I don't want to talk small talk
Now that I'm alone with you
I don't want to talk small talk
We've got bigger things to do
Let's not talk of the weather
Or the fashions for the fall
Why don't you stop all this small talk?
I've got something better for your lips to do
And that takes no talk at all

I've got to buy me a dressy dress, the one that I have is such
a mess!

Small Talk!
Who will you vote for next election,
How do you like the stamp collection?
Small Talk!

Read in a book the other day that halibut spawn in early may and
horses whinney and donkeys bray and furthermore, the pigmy
tribes in Africa may have a war.

No?
Yes!
I don't want to talk small talk
What do you think they charge for ham now?
Now that I'm alone with you
Got so a buck ain't worth a damn now
I don't want to talk small talk
Read where the winters are getting milder

We've got better things to do
And that the teenage kids are wilder
Let's not talk of the weather
One of these days I'm gonna paint the kitchen

Or the fashions for the fall
Get pop to put a new light switch in
Why don't you stop all that small talk
Like I was saying
I've got something better
What I mean is
For your lips
I was only
To do
