

Walk with Him

Doris Day

Walk with Him beside the whirling river
Stand with Him and touch an evening star
He'll bring you beauty you have never dreamed of
Wherever you are

Walk with Him through fields of yellow flowers
Stand with Him atop a mountain high
Peace of mind and love will walk beside you
As the days go by

He's there in the morning sunlight
There when the shadows fall
There if you ever need Him
Just speak His name, He'll hear you call
He will shelter you when there is stormy weather
Go with you if you should have to roam
And if you lose your way, He's there to guide you
Take His hand and He will lead you home
