

You My Love

Doris Day

My love is ever you, my love
Now and forever, you my love.
You walked into my lonely world,
What peace of mind your smile unfurled.

Yes, and because of you, my love,
My wishful dream came true, my love.
In my uncertain heart, I'm only certain of
How much I love you, my love...

In my uncertain heart, I'm only certain of
How much I love you, my love

Yes, and because of you, my love,
My wishful dream came true
In my uncertain heart, I'm only certain of
How much I love you, my love
