Chained

Doro

Do unto others
As you'd have them do to you
It would make our life so easy
Yeah there's gold in that rule
But money is a god
For so many in this world
Yeah, they wanna own the souls
Of every man, woman, boy and girl
It's sad but true to see
It is them against you and me
But we are

Chained,
Chained, chained for life
Chained
Chained 'till we die
And together we will fight
For what we know is right
Yeah we are
Chained
Chained, chained for life
We are chained, chained, chained, chained
We are chained, chained, chained, chained

Angels walk among us
But there are devils out there too
And they cast their evil on us
Hoping we'll do what they want us to do
Turning love into hatred
Making dreams become untrue
And the only thing that's sacred
Is the bond between me and you
It's sad but true to see
It is them against you and me
And we are

There's evil all around us
But I don't fear it
It's time to raise our voices
And let them bastards hear it
Watch out
