

# Fight Through The Fire

Doro

Fighting head to toe  
Never letting go  
The courage to be the defier  
Sweat and blood and pain  
Determination stains  
The fuel that we add to the fire

No way  
You gotta pay the price you pay  
No way  
You can turn and walk away  
Today  
You're gonna rise or fade away  
No way  
No way

Fight through the fire  
Fearless and sound  
Don't tell us that we're wrong  
Elevate higher  
United we stand  
We're right where we belong  
Fight through the fire

See it straight ahead  
Aiming for the red  
Stronger than wings made of iron  
Nothing to confess  
Never second guess  
The fruits of our labor transpire

No way  
You gotta pay the price you pay  
No way  
You can turn and walk away  
Today  
You're gonna rise or fade away  
No way  
No way

Fight through the fire  
Fearless and sound  
Don't tell us that we're wrong  
Elevate higher  
United we stand  
We're right where we belong  
Fight through the fire

Fight through the fire

Fight through the fire

Fight through the fire  
Fearless and sound  
Don't tell us that we're wrong  
Elevate higher  
United we stand

We're right where we belong  
Fight through the fire  
Hey, you can't make us go away  
We're all here to stay  
You're only adding more  
Fuel to the fire  
Hey, you can't make us go away  
We're all here to stay  
You're only adding more  
Fuel to the fire
