

Fire in the Sky

Doro

Gotta stand up, let's prepare to fight
Put your hands up, your life's on the line
Gotta pray for the ones you love
Having faith in you and in God

Gotta fight, you know what is right tonight
Fight, fight, fight, fight
Gotta strike, you know there's no place to hide
And no way out, oh, oh-oh

I see fire in the sky
I see it in your eyes whoa, oh-oh
I see fire lights the sky
And the world is burning down

It's burning down, it's burning down
It's burning down, and no way out
It's burning down, down to the ground
It's burning down, no way out
It's burning down

I had a feeling a long time ago
Didn't know the meaning, for sure it was true
I could foresee, but hard to believe
I did receive a sign, or just two

We gotta fight, you know that it's time tonight
We gotta strike, 'cause there ain't no place to hide
And no way out, oh, oh-oh

I see fire in the sky
I see it in your eyes whoa, oh-oh
I see fire lights the sky
And the world is burning down

It's burning down, it's burning down
It's burning down, and no way out
It's burning down, down to the ground
It's burning down, no way out
It's burning down

We gotta fight, you know that it's time tonight
We gotta strike, 'cause there ain't no place to hide
And no way out, oh, oh-oh

I see fire in the sky
I see it in your eyes whoa, oh-oh
I see fire lights the sky
And the world is burning down

It's burning down, it's burning down
It's burning down, and no way out
It's burning down, down to the ground
It's burning down, no way out
It's burning down
