

I Lay My Head upon My Sword

Doro

War creates more war
Creates more hate
Till it is too late

Wrong will always breed wrong
Will always bring down
The chances for peace

It's too dark to see a better day
It's so hard to find a better way

I lay my head upon my sword
No more blood and no more war
I lay my head upon my sword
To end this war

Right who ever was right
No one even knows
So what does it mean now?

Fight for strong beliefs
Whatever one feels
Might not be the only way

It's too dark to see a better day
It's so hard to find a better way

I lay my head upon my sword
No more blood and no more war
I lay my head upon my sword
And end this war
I lay my head upon my sword
Wanting peace and no more war
I lay my head upon my sword
And end this war

It's too dark to see a better day
It's so hard to find a better way

I lay my head upon my sword
No more blood and no more war
I lay my head upon my sword
And end this war
I lay my head upon my sword
Want some peace and no more war
I lay my head upon my sword
And end this war

I lay my head upon my sword
No more blood and no more war
I lay my head upon my sword
And end this war
