

Strangers Yesterday

Doro

Strangers yesterday...
....together we belong

Born in a world we don't wanted
Born under real bad signs
Born in the name of destruction
With a dysfunctional life
Live in a world full of hate
Live for the truth to remain
We're all in it, let's make it better
We can make a change forever

We're born to die but we're together
Fight this fight

Strangers yesterday
But now we know we're on our way
Strangers yesterday - no more
We're brothers to the core
Stand up, fight forever more
Strangers yesterday - no more for sure
'Cause together we belong

Into the future we'll go
So many secrets to know
So many times we would battle
So many fights we could settle
So many days without gain
Too many days in pain
We will be good for each other
Belong just to another

We will be strong and we'll go on
To live each day

Strangers yesterday
But now we know we're on our way
Strangers yesterday - no more
We're brothers to the core
Stand up, fight forever more
Strangers yesterday - no more for sure
'Cause together we belong
Yeah, we belong

We will be strong and we'll go on
To fight each day and we'll care

Strangers yesterday
But now we know we're on our way
Strangers yesterday - no more
We're brothers to the core
Stand up, fight forever more
Strangers yesterday - no more
Strangers yesterday
But now we know we're on our way
Strangers yesterday - no more
We're brothers to the core

Stand up, fight forever more
Strangers yesterday - no more
Strangers yesterday
But now we know we're on our way
Strangers yesterday - no more
We're brothers to the core
Stand up, fight forever more
Strangers yesterday - no more for sure
'Cause together we belong
