

## The Last Goodbye

Doro

"You said the last goodbye  
Now you leave and I stay behind  
We cry for you now and you decide to die  
Now you leave and I stay behind and you decide to die

We might meet again in a different light  
We might meet again in paradise

You said the last goodbye  
Without answers, without crying  
I'll forgive you now and wish you all the love to  
find  
You said the last goodbye  
And I wish you all the love to find

We might meet again in a different light  
We might meet again in paradise

We might meet again in a different light  
We might meet again in paradise"
