Hurricane

Dorothy

Wasn't looking for love
Had enough of nothing
Always down on my luck
You know heartache's nothing new to me

I was cold to the touch
Yeah, and you were hot blooded
Guess it's just my luck
You come and blow me away

Coming for ya

I wasn't even looking when your body hit me
Like a hurricane (Hurricane)
I confess you shook up all my deep emotions
So come on and hit me like a hurricane
Hurricane

Wanna get me alone
Hello operator
Yeah, I think we got stuck 'cause neither of us saw the danger

Now it's too late to run
Run from Mother Nature
Guess it's best to give in
We can beg for forgiveness later
Yeah, yeah

Coming for ya

I wasn't even looking when your body hit me
Like a hurricane (Hurricane)
I confess you shook up all my deep emotions
So come on and hit me like a hurricane

(Hurricane)

I wasn't even looking when your body hit me like a hurricane
Whoa, whoa, yeah
I confess you shook up all my deep emotions
So come on and hit me, yeah

I wasn't even looking when your body hit me
Like a hurricane (Hurricane)
I confess you shook up all my deep emotions
So come on and hit me like a hurricane
Hurricane
