

THE DEVIL I KNOW

Dorothy

It's spiritual warfare, it's a living nightmare
It's a human condition that brings me to my knees
It's a sick addiction, it's pure affliction
It's to break the spirit and destroy what I believe

But I won't bend no I won't break
You can beat me down you can try to cage
But no stone you throw will ever shake my faith

In this hell where everything falls from grace
Broken and out of place something inside of me takes hold
And tells me I'm not alone, hell has no fury like my soul
For the devil I know

It's a face of a liar, a poison you desire
It's the ghost inside my head that haunts me in my dreams

But I won't bow no I won't break
You can cast me out burn me at the stake
You can close my eyes but I'm wide awake

In this hell where everything falls from grace
Broken and out of place something inside of me takes hold
And tells me I'm not alone, hell has no fury like my soul
For the devil I know
For the devil I know

Oh help me help me father
I'm calling out your name
Forgive me for the damage
I cause when I'm in pain
I know I'm self destructive
And I know my heart can stray
Oh help me help me father
I'm calling out your name

In this hell where everything falls from grace
Broken and out of place something inside of me takes hold
And tells me I'm not alone, hell has no fury like my soul
For the devil I know
Hell has no fury like my soul
Hell has no fury like my soul
Hell has no fury like my soul

For the devil I know
