

How do I live my life each day
With nothing left to say
I'm trying to find a way
I don't wanna live in yesterday
I don't wanna live in yesterday

I don't wanna let go
Of the things I don't know
I don't wanna feel the pain
I'll never be the same
I'll never be the same

I'm digging my own grave

How can we say goodbye
When we never say goodbye
When we never say goodbye
How can we say goodbye
When we never say goodbye
When we never say goodbye

Why do you paint me black
You're just a photograph of the past
I'm out of my mind not impressed
By your mask
By your mask

Give me a fucking break
I hate when I see your fucking face
I'm trying to leave you in the past
Get out of my mind someone please push erase

How can we say goodbye
When we never say goodbye
When we never say goodbye

How can we say goodbye
When we never say goodbye
When we never say goodbye
How can we say goodbye
When we never say goodbye
When we never say goodbye

How can we say goodbye
When we never say goodbye
When we never say goodbye
