Large Fries

Dot Dot Curve :)

I need you so fucking bad right now
I'm yelling where are you, I can't find you now

You got me running in circles
You got me running in circles
You got me, you got me
You got me running in circles

Roses are red, violets are blue
Stuck in my head
Trying to find you
I'm so lost without seeing your face
I need you so fucking bad right now
I need you so fucking bad right now

I can't find my way out
As the floor crumbles
My sanity tumbles

Feels like I'm living in a daze
My brain is fucked lost in a maze
My body is stuck locked in a cage
I'm so lost without seeing your face

As my floor tumbles, I crumble
I hate to be the one to burst your bubble

You got me running in circles
You got me running in circles
You got me, you got me
You got me running in circles

Roses are red, violets are blue
Stuck in my head
Trying to find you
I'm so lost without seeing your face
I need you so fucking bad right now
I need you so fucking bad right now

Will you take my hand
Beneath this blackened sky
Or will you say goodbye
Say goodbye
One last time
