

Let the Stoner Go

Dot Dot Curve :)

It's always sing about weed too much and I'm just like, like not afraid to sing about stuff that I believing, I believing in Mary Jane

Let the stoner go, let the stoner go
Let the stoner go, just let the stoner go
See all I ever try to do it's get my mind to work
I make a dope ass beats to make these asses twerk
Let the stoner go, let the stoner go
Let the stoner go, let the stoner go
See all I ever try to do it's get my mind to work
I make a dope ass beats to make these asses twerk
Let the stoner go

Yeah, let me go, let me go
Getting stoner rolled up, blow it out
Like a foreign what you like
What you burn slow, egg lows
On the 'em hills and face on the exhale blow
Yeah, I'm super high but I down low
Yeah, I mellow, cause I'm smokin' on that mellow
Yellow, hallow, below, beat low, way it too low
I'ma white boy, call me one of bridge America's whip
Yeah, my eyes on red, my visual a little blurry
Feels a like I'm walking dummy
Yeah, the walking dead blowin' cloud after cloud
At the loud, you try to say it's illegal, but fuck it, I'ma asshole

Let the stoner go, let the stoner go
Let the stoner go, just let the stoner go
See all I ever try to do it's get my mind to work
I make a dope ass beats to make these asses twerk
Let the stoner go, let the stoner go
Let the stoner go, let the stoner go
See all I ever try to do it's get my mind to work
I make a dope ass beats to make these asses twerk
Let the stoner go

So jello, hello, you know I'm feellin' on low
You can see me put that chronic in the cigarillo (That's way)
We don't give a let you sinking, you sayin' it's illegal, but it's okay
And we don't have to say it in black mask We got the room lookin' like a storm cloud
DEA probably bustin' down the door now
DEA can't throw it, we got smoked out
(We're in hell, there's so much smoke)
I said I'm out here and I'm doin' fine
I the puff it then I put all behind

I the puff it then I put all behind, let's the stoner go

Let the stoner go, let the stoner go
Let the stoner go, just let the stoner go

Let the stoner go, let the stoner go
See all I ever try to do it's get my mind to work
I make a dope ass beats to make these asses twerk
Let the stoner go

Sit and chillin', drive and smoking on that green
Straight lean in second, makin', packin'
Go the track bumpin' in the back
Windows black, wrappen over me
Where my stereo? Turn it all the way, yup, yo
So I'm talkin' it and smokin' it, I'm always trippin'
Lookin' like I'm livin', but I'm straight in hating everything
I can take just to make coffee and Captain, time to take a blast off
And my eyes cross like three, two, one
Lived up and I'ma pick up, them steems them seats
Ridin' all and starts to smoking that weed
Yeah, I gotta stay, gotta, gotta stay high
I'ma smokin' till I die, I'ma smokin' till I die, die

Let the stoner go, let the stoner go
Let the stoner go, just let the stoner go
See all I ever try to do it's get my mind to work
I make a dope ass beats to make these asses twerk
Let the stoner go, let the stoner go
Let the stoner go, let the stoner go
See all I ever try to do it's get my mind to work
I make a dope ass beats to make these asses twerk
Let the stoner go
