

On And On

Dot Dot Curve :)

Same shit, just a different day
It goes on and on and on
I don't know how much longer she can live this way
It goes on and on and on

Same shit, just a different day
It goes on and on and on
I don't know how much longer she can live this way
It goes on and on and on
It's a same shit, just a different day
It goes on and on and on
I don't know how much longer she can live this way
It goes on and on and on (On and on and on)

She just wakes up and does it 9 to 5
All day dreamin' she can never different life
And it goes on and on and on
Party with her friend to just for her life
You get in the moment when no sacrifice
And it's a same shit, just a different day
And it goes on and on and on

Same shit, just a different day
It goes on and on and on
I don't know how much longer she can live this way
It goes on and on and on
It's a same shit, just a different day
It goes on and on and on
I don't know how much longer she can live this way
It goes on and on and on (On and on and on)

She just wakes up and put her make up on
Lookin' at herself, wishin' that she can be gone
And it goes on and on and on

Same shit, just a different day
It goes on and on and on
I don't know how much longer she can live this way
It goes on and on and on

She's givin' up, cryin' face full of tears
Screamin' out to the world, but no one will hear
And it's a same shit, just a different day
And it goes on and on and on

Same shit, just a different day
It goes on and on and on
I don't know how much longer she can live this way
It goes on and on and on
It's a same shit, just a different day
It goes on and on and on
I don't know how much longer she can live this way
It goes on and on and on
