

Stop, Drop, And Roll

Dot Dot Curve :)

So stop and drop and roll
So stop and drop and roll

I think there's something burning
I think I smell the smoke
This pasty's goin' down in flames so to hell we go
I think there's something burning
I think I smell the smoke
And when that smoke gets rising all the girls gotta drop it low
So stop and drop and roll
So stop and drop and roll
So stop and drop and roll
It's fire in the hall
So stop and drop and roll
So stop and drop and roll
So stop and drop and roll
It's fire in the hall

Stop, drop, roll
Little mama show me what you got
Working like they dancing on the pole then take it to the top
DDC and JJ Demon getting crunk, getting high
DJ turn this up and notch, we poppin' bottles, taking shots
Fruity Pebbles in my watch, Freddy Flinstone with the rocks
Lady's so amaze and pretty
Much just everything your not keep the flame up
Building, building watch as the fire grows
Stop and get a swisher drop it in
And you know it's time to roll

Wait a minute, now stop
Now let me see you drop
Now me and you need to roll
Let's go, let's go, let's go
Wait a minute, now stop
Now let me see you drop
Now me and you need to roll
Let's go, let's go, let's go
Hey, if you didn't know
My name Spanky, hoe
I'm the hottest on the scene
I'm blazin like some green
I'm smokin' up these places
Givin' girls chokin' faces
No jokin, I swear it
Were fire even you girls know it

I think there's something burning
I think I smell the smoke
This pasty's goin' down in flames so to hell we go
I think there's something burning
I think I smell the smoke
And when that smoke gets rising all the girls gotta drop it low
So stop and drop and roll
So stop and drop and roll
So stop and drop and roll
It's fire in the hall

So stop and drop and roll
So stop and drop and roll
So stop and drop and roll
It's fire in the hall

When I'm steppin' in a spot I'm on it
When I pull up in the parking lot
Wherever I go becomes this order
You can feel things start to get hot
Steam heat common out you from the city up
Temperature risen it increased Fahrenheit
Gotta lighter and a gas, can ready to
Gowsed ignight, ready to down paradise
She told me to slow it down, that friction causing heat
My flows a motherfuckin' fire hazard, that's how it ada be
So you know we gotta, cause a scene
You can be warm, but it's not enough
JJ Demon and DDC
You know it's gonna be hot as fuck
