

You Can Never Stop Me

Dot Dot Curve :)

(You can never stop me)
Anything that comes my way
Don't care what you say
Try to put gas on the flame
Bitch, you can never stop me
Anything that comes my way
Anything that comes my way
Try to put gas on the flame
Bitch, you can never stop me

Bitch, you can never stop me
You can never stop me
You can never stop me
Anything that comes my way
Try to put gas on the flame
Bitch, you can never stop me

Try to put gas on the flame
Look at my fire, you can try to put me out
Or try to put dirt on my name
Toxic breath, call me a liar
I don't really play that game
I'm Super Saiyan, I'm never tired
Now that I'm off my chain
I got the mic and I can't complain
It's what I got to relieve this pain
Don't give a shit if you got my back
Don't give a shit 'cause I'm in my lap
I'ma come through with a whole new game
And a whole new plan and a whole new way
You could even try to stand in my way
Get in my face but there's no way

Bitch, you can never stop me
Anything that comes my way
Don't care what you say
Try to put gas on the flame
Bitch, you can never stop me
Anything that comes my way
Anything that comes my way
Try to put gas on the flame
Bitch, you can never stop me

Bitch, you can never stop me
You can never stop me
You can never stop me
Anything that comes my way
Try to put gas on the flame
Bitch, you can never stop me

You can never stop me now
Say what you gotta say
But you still know my name
You don't know my name, bitch
I'm dumb, I'm stupid
That's why your girl give me brain
I tried, you was saying

That's why you tryna put gas on the flame
When I pop that thing
Coupe with that MP5
Pop, pop, pop (body drop)
I keep my weapon overdrive
Homicide, double shot
Pop, drop, put gas on the flame bitch
What

You can never stop me
Anything that comes my way
Don't care what you say
Try to put gas on the flame
Bitch, you can never stop me
Anything that comes my way
Anything that comes my way
Try to put gas on the flame
Bitch, you can never stop me

Bitch, you can never stop me
You can never stop me
You can never stop me
Anything that comes my way
Try to put gas on the flame
Bitch, you can never stop me
