

Who you doing all this for
You soil futures
That fertilizer better work
If a plant the wrong seed

Cassandra warned me
Cassandra loves me
She's constantly warning me

So timber's yelled when a tree falls
What can I scream for my heart
Misled poison smoke signals
Err on the side of caution when you breathe

Will someone love me
Singularly
Sing along with me
Forget along with me
Cassandra's warning
If all I want is flattery
No one to blame to but me
If I let it defect me
Who you doing all this for
Ice skating on a frozen pond in March

Where was the warning
Why weren't you with me
Remember how
It was before me

Cassadra's warning
Pretend ya don't see
Cassandra's warning
