

First in Forever

Dot Hacker

For once I'm not out to get
Not convinced all the ways are set
We all move a little bit
This can be the first in forever

No more fucking around
All it takes is the once
Before it becomes the rest

No rest for the wick of a candle
You refuse to blow out
Walk round in my hell now
Alas some fire
You should feel safe now
You can admit you feel

What are you afraid of?
What are you afraid of now?

No child left behind, I'm laughing
Too much in the way of in action
We all move a little bit
No more smiles if you don't mean it
Show me how I should love now
This is the only way I know how
I just need you to stand me
Showered with all this love now
Walk round in my hell now
Shoot me for trying...
