

## Found Lost

Dot Hacker

Maybe you can see  
Something no one else can  
Maybe you've spent  
Two sides of the same coin

Dimension questions  
Direct my way  
Too many questions  
About where I may be  
I've been found lost  
I've been found lost

The race may be one/won by staying as far away as we can

We've overcome so much just to find you there  
You're not lost you're stading in our way

Come in first and lost  
Compasses so off  
Too many born lost  
We can't lose this way  
Anyway I'm here lost  
Gone to find a way  
Once I'm gone I'll never  
Come this way again  
I've been found lost  
Found myself lost

All is not lost  
Just tell me where you are  
In your own voice  
Come on in your own voice

Where'd you find this loss  
You must love being lost  
Darken reflections  
You can't guide anyway  
How are you not lost  
Everywhere I'm lost
